## Summary

Electronics and Communication Engineering undergraduate and Backend AI Engineer Intern skilled in Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, JWT authentication, and AI API integration (Hugging Face, OpenAI, Gemini). Delivered 3 full-stack applications with authentication, data modeling, and cloud hosting across 9+ user-facing flows.

## Experience

### Backend AI Engineer Intern

July 2026 – Present

FlyRank AI (Remote)

- Built Node.js/Express REST APIs for 4+ Backend AI features with contracts and structured errors.
- Shipped 5+ JWT-authenticated API routes with consistent JSON for AI interview and resume clients.
- Integrated AI service calls into backend routes and documented 3+ services for clearer handoffs.
- Fixed recurring API failures across 10+ GitHub commits, unblocking team release readiness.

## Education

### B.Tech in Electronics and Communication Engineering; GPA: 8.1/10.0

August 2023 – May 2027

National Institute of Technology, Durgapur

### Class XII; Percentage: 88.2%

June 2021 – May 2023

SASI E.M. High School

## Coding Profiles

- 🏆 **LeetCode**: Completed 200+ medium and hard problems.
- 🧑‍💻 **GeeksforGeeks**: Practiced 100+ DSA problems (arrays, trees, DP).
- 🏆 **Codeforces**: Reached 1200+ rating; finished 50+ rated contests.
- 🍳 **CodeChef**: 2-star (1531 peak); completed 30+ contest problems.

## Projects

### Prompt Craft – AI Image Generation Platform 🐙 GitHub 🚀 Live Demo

Text-to-image platform with a searchable community showcase.

- Built a React.js and Tailwind CSS client with generate, share, and browse flows for AI images.
- Delivered 4+ Express.js REST APIs calling Hugging Face Inference for text-to-image JSON.
- Stored posts in MongoDB and media in cloud storage; deployed frontend and backend separately.

**Tech Stack:** React, Tailwind, Node.js, Express.js, MongoDB, Hugging Face, Cloudinary, Vercel/Render

### Stay Ease – Vacation Rental Marketplace 🐙 GitHub 🚀 Live Demo

Host and guest marketplace for listings, search, and booking.

- Implemented listing CRUD with image uploads in Node.js/Express so hosts can publish properties.
- Enabled search, filter, and reserve booking flows for one continuous guest journey.
- Modeled 3 MongoDB collections and protected writes with JWT against unauthorized changes.

**Tech Stack:** React, Node.js, Express.js, MongoDB, JWT, Cloudinary

### Budget Wise – Personal Finance Tracker 🐙 GitHub 🚀 Live Demo

Spending dashboard with live balance and 50-30-20 savings guidance.

- Launched a React.js dashboard for expenses, live balance, and SVG pie chart analytics.
- Added Express.js signup/login with hashing and JWT to keep accounts private across sessions.
- Defined MongoDB user schemas with unique emails and a 50-30-20 savings split.

**Tech Stack:** React, Node.js, Express.js, MongoDB, JWT, JavaScript

## Skills

- **Backend / AI:** Node.js, Express.js, REST APIs, JWT, Auth, RBAC, API Design, Hugging Face, OpenAI, Gemini
- **Languages:** JavaScript, C++, SQL, C, HTML5, CSS3
- **Database:** PostgreSQL, MongoDB
- **Frontend:** React.js, Tailwind CSS
- **Tools:** Git, GitHub, Postman, Cursor, VS Code, Claude
- **Cloud:** Supabase, Render, Vercel, Netlify, Cloudinary
- **CS Fundamentals:** OOP, DBMS, OS, Data Structures and Algorithms
